Experience

Product Designer • Karta • Redwood City, United States
Feb 2026 - Now

- Developed and scaled a comprehensive design system, creating reusable components and documentation that improved product consistency and accelerated cross-team collaboration
- Designed and optimized payment flows and transaction experiences, increasing usability, reducing friction during checkout, and improving overall conversion rates

Product Designer • FinHarbor • Belgrad, Serbia
Jun 2025 - Feb 2026

- Designed and improved a mobile cryptocurrency application, focusing on user experience, usability, and visual consistency, resulting in a +25% increase in user engagement and +18% improvement in retention
- Built and maintained a scalable design system, reducing design inconsistencies by 40% and speeding up design-to-development handoff by 30%

Product Designer • Guavapay • London, UK
Nov 2022 - Jun 2025

- Money transfer app: Designed an intuitive mobile experience that reduced transfer time by 30% and increased successful transactions by 18%.
- POS terminal app: Created a seamless in-store payment flow, reducing checkout friction and improving transaction speed by 20%.
- Business management web app: Developed a dashboard with clear data visualization, helping users complete daily tasks 25% faster.
- Customizable checkout process: Designed an embeddable checkout system that increased completion rate by 12%, allowing merchants to personalize UI elements without engineering support.
- UI Kit & Design Systems: Built and maintained a scalable design system that significantly reduced design-to-development time and improved UI consistency across products.

Graphic Designer • Kapital Bank • Baku, Azerbaijan
Oct 2021 - Nov 2022

- Created social media visuals and promotional graphics.
- Designed materials for internal communications and presentations.
- Produced banners, posters, and campaign assets.
- Prepared print-ready designs for brochures, flyers, and other collateral.
